

Overview

Our Braided Polyester Rope (also known as VB Cord or venetian blind cord) is a lightweight, high strength rope with a whole range of uses. This cord is made from 100% polyester yarns that are plait braided into a tough, durable, yet highly flexible cord. It is very strong, has high energy absorption and is not affected by (nor will it absorb) water.

Polyester Cords & Ropes are often used in the marine industry, as cords for venetian and roman blinds and in a variety of areas within industry and around the house. They are chosen because of their generally economic price, excellent versatility and range of features.

Typical applications include:

- As a blind draw cord for venetian blinds.
- For docking lines for boats and ships.
- Mast stays, flat halyards, slings & lifelines.
- As a hoist rope.
- As a tying cord and lashing rope for electric motors.
- As a tent rope.
- Running rigging and antenna lines.
- For securing awnings and shade cloths.
- As a rope on flagpoles.
- As a general-purpose, low stretch rope in the construction industry.

Key Specifications

Colour	White
Fibre	Polyester / PET
Construction	8 Strand Plait
Softening Temperature	225°C Approx.
Specific Gravity	1.38
Elongation at Break	35%

Diameter	Break Strength (+/-10%)
2mm	145kg
2.5mm	195kg
3mm	250kg
4mm	410kg
