

# Flex 310M Stainless Steel Adhesive Sealant Quick Reference Guide

## Overview

Weicon Flex 310 M Stainless Steel Sealant is a high quality elastic adhesive made in Germany. This grade is non-corrosive, neutral curing and completely free of silicones and solvents.

It can be used indoors or outdoors (it has excellent UV resistance), is resistant to fresh water and salt water and is very long lasting with good aging stability.

Weicon Flex 310 M Stainless Steel Sealant has been colour matched to suit stainless steel. In addition to stainless, it also bonds very well to aluminium and other types of non-ferrous metals.

310 M Stainless Steel has a pasty consistency and can be accurately applied to vertical or horizontal surfaces using a standard caulking gun.

This grade has been certified by ISEGA as an adhesive suitable for use in food technologies.

Typical applications include...

- Heating, ventilation, and air conditioning assembly, sealing and repair.
- Metal construction.
- Sealing joints and seams on aluminium, stainless steel, or non-ferrous metals.
- Kitchen and bathroom sealing and bonding.
- Electrical and lighting sealing and installation.
- Sealing and bonding in marine applications.
- Wherever a sealant that matches the colour of stainless steel is required.
- Anywhere sealants or adhesive containing silicone are not permitted or suitable.

## Key Specifications

Basis	1 Part MS Polymer
Viscosity	Pasty
Density	1.08 g/cm <sup>3</sup>
Skin-Over	15 Minutes
Hardness	45 Shore A
Elongation	280%
Max. Movement	20%
Continuous Temp.	-40°C to +90°C

## Flex 310 M Stainless Steel Information.

The table below lists all our standard sizes of Weicon Flex 310 Stainless. To quickly find any on our website, just search for the SWM part number listed.
