

Overview

Our Oil Jointing General Purpose Gasket Paper is a economical and versatile type of gasket fibre that can be used for low temperature sealing. It is manufactured from protein bonded cellulose fibres and is able to seal oil, water, fuels and other non-aggressive media.

Oil Jointing Gasket Paper can withstand temperatures up to 120°C and can be easily cut to the shape required.

This material seals at low compression so it is ideal for low to medium bolt loads.

Typical Applications Include...

- Gaskets for gearboxes
- Gaskets for fuel pumps
- Tank gaskets
- Sealing Strips
- Gaskets for low pressure pipe flanges
- Water pump gaskets

Key Specifications

Colour	Brown
Temperature Rating	120°C
Compression	25% - 40%
Tensile Strength	13.79 Mn/m ²
Recovery	40% (minimum)

Oil Jointing Gasket Paper Standard Sizes.
